

Product Portfolio

Weir Power & Industrial has a portfolio of products to support global best practice in power generation and oil and gas safety. We have market leading products for nuclear and subsea applications, and a 15% share of our niche markets, worldwide.

We have a unique, customer accessible design and configuration system, which enables us to optimise the valve and control solution for any project. This is complemented by fast track new product development, and our commitment to long-term maintenance and service.

Weir Power & Industrial world-leading product brands include:

ATWOOD & MORRILL

Engineered Isolation & Check Valves

BATLEY VALVE

High Performance Butterfly Valves

BLAKEBOROUGH

Control & Severe Service Valves

HOPKINSONS

Parallel Slide Gate & Globe Valves

HYDROGRITTER

De-Gritting Machines

MAC VALVES

Ball & Rotary Gate Valves

ROTO-JET PUMP

High Pressure Pitot Tube Pumps

SARASIN-RSBD

Pressure Safety Devices

SEBIM

Nuclear Valves

TRICENTRIC

Triple Offset Butterfly Valves

WEMCO PUMP

Extra Heavy Duty Vortex Pumps

WEMCO SELF PRIMER

Solids Handling Self Primer Pumps

Geographical footprint

Weir Power & Industrial has a strong geographical presence in the major markets around the world. Our global sales and marketing network means we can effectively support our customers' operations worldwide, and as part of the wider Weir Group, we have the reach and resource to grow into emerging markets alongside our customers.

Weir Power & Industrial has operations in:

- USA
- UK
- Europe
- Middle East
- Asia

Customer profile

Weir Power & Industrial customers include many of the world's leading companies in power generation, both fossil fuel and nuclear, as well as leading oil and gas explorers and producers. We also have a developed general industrial customer base, particularly in the food, pulp and process industries.

We build close, long term relationships with our customers, based on our understanding of their priorities, and our ability to provide long-term technical support and service.

Weir Power & Industrial customers include:

- Alstom Power
- Black & Veatch
- Electricité de France (EDF)
- Score Group PLC
- Entergy Corp. DE
- Pennsylvania Power & Light Corp
- Sargent Lundy
- Daelim Ind Co Ltd
- Rolls Royce
- Duke Energy
- Mitsui Babcock Energy
- Woodside Energy

Power & Industrial
Solutions

First choice
for process protection

Whole project, whole process solutions

Weir Power & Industrial has the capability to design, deliver and maintain project-wide solutions. We work in many of the world's most technically challenging environments, engineering our products to overcome site-specific and process problems.

Best product for process

Weir Power & Industrial are industry leaders in products for critical control and isolation applications. A linked network of specialist manufacturing locations provides an effective platform for rapid new product deployment.

Total reliability in operation

Meeting customer specifications is simply the first step in delivering whole lifecycle performance. Weir Power & Industrial can offer on-going process enhancement, with tailored maintenance, repair and operational support.

Global supply and support

Weir Power & Industrial offers the local know-how and presence necessary for major projects in many regions backed by a global supply network. This enables us to provide our customers with consistent products and standards of service worldwide.

The best people in the business

Weir Power & Industrial employs approximately 800 people around the world. Our customers have direct access to specialist engineering expertise and world-class project management.
